

MATH 76 Activity Lab Syllabus -Spring 2021

Recurring Meeting Times: Tuesday from 8:30 AM - 9:50 AM
Instructional Student Assistant (ISA): Victoria Donis
Email: victoriardonis@mail.fresnostate.edu
Zoom (used for the entire semester): <https://fresnostate.zoom.us/j/89695502474>

I reserve the right to make changes to the syllabus.

Welcome to the MATH 76 Activity Lab. This is a weekly activity/practice lab session that is correlated to the MATH 76 course that you are taking. You can expect to gain a better understanding of functions, graphs, limits, continuity, derivatives and application of the concepts through practice problems and math activities. Also, there will be group work and collaboration implemented in our lab sessions.

While in the Zoom meetings, the use of a functional webcam for the entirety of every activity lab to communicate with your peers is strongly encouraged. Also, we will be writing on the Zoom whiteboard and as well as the activity sheets. So using a mouse or USB drawing tablet is preferred over using a trackpad/touchpad. But it is understandable if you do not have these tools and/or unable to obtain them.

Zoom Breakout Room Norms:

1. Greet each other.
2. Respect the input of your group mates.
3. Involve everyone in the discussion and activity.
4. Thank your group mates before the breakout rooms are closed.

Grades: Your attendance and your active participation and in the sessions will affect your grade in your MATH 76 course.

Active Participation: Students are expected to work collaboratively within groups in the problem-solving activities. This includes working on the activity sheets that are given out every session.

Activity sheets:

- All activity sheets are worth 20 points
- Late Submissions
 - If a student turns in their assignment late

- The first late assignment will not be penalized. But after the first late submission, every time the student turns in an assignment late, there will be an increase of points taken off for every assignment that has been turned in late.
- If the student has turned in the assignment after the corrections have been uploaded on Canvas, they will be graded on **half credit**. This is because I am showing the answer to the assignment.
- If a student turns in the assignment but did not attend the session, the student will be graded on **half credit**.
- **Corrections:** The answers to the activity sheets will be uploaded to Canvas on the days that the assignments are due. They will be uploaded 5 minutes after the time that they are due. So the answers will be uploaded on **Wednesday at 8:35 AM**.

Attendance: Students are given two free absences in this activity lab for the Fall 2020 Semester. These two free absences will **not** affect your grade and you do **not** need to provide documentation. However, any absences after your two absences **must be properly excused** (i.e. doctor's note, appointment notice, a short letter from your employer, etc...). Please email them to me at your earliest convenience.
